1. Gwen is a project manager. She has to prepare and communicate a schedule to her stakeholders. Using a project management technique in which a schedule network analysis is used to modify an already determined and set project schedule to account for more limited than expected project resources. She is adding resource, feeding, and project buffers. What analysis is she using?

1 / 1 point

- ☐ Critical release
- ☒ Critical chain
- ☐ Critical buffer
- ☐ Critical path

✔ **Correct**

Correct! Critical chain is a project management technique in which a schedule network analysis is used to modify an already determined and set project schedule to account for more limited than expected project resources. Resource, feeding, and project buffers are added to ensure the critical path is accomplished on time.

2.

1 / 1 point

Refer to the network diagram above. How long is the critical path for this project?

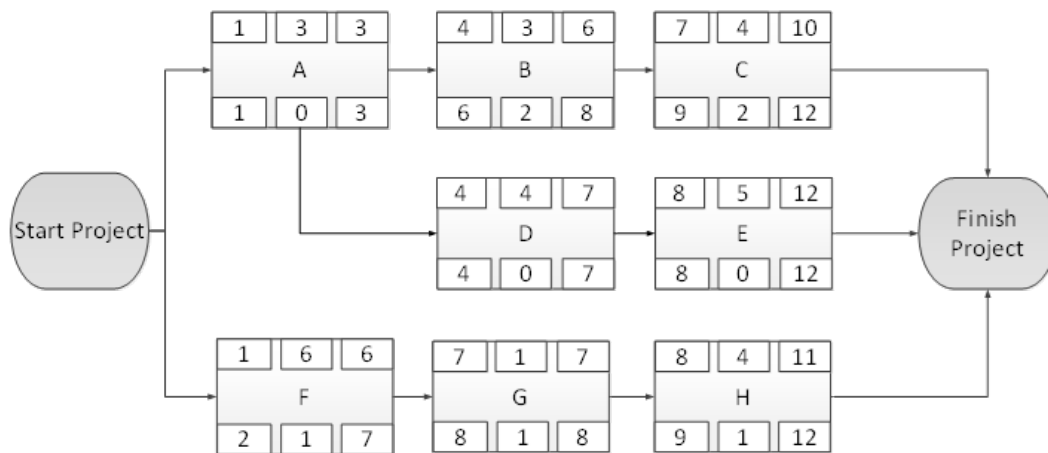

- ☐ 10
☒ 12
☐ 13
☐ 11

✓ **Correct**

Correct! The critical path is the path of the longest duration. In this case, the answer is path ADE which is 12.

3.

1 / 1 point

In the above network diagram, which work packages have float/slack?

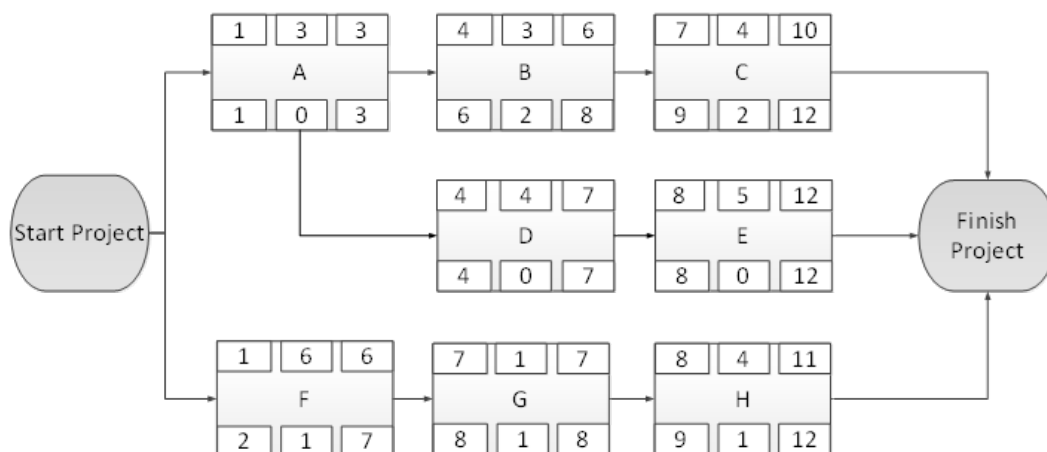

- ☐ H

☒ C☐ E☐ A☒ **Correct**

Correct! Work packages C and H are not on the critical path. They both have float/slack.

4.

1 / 1 point

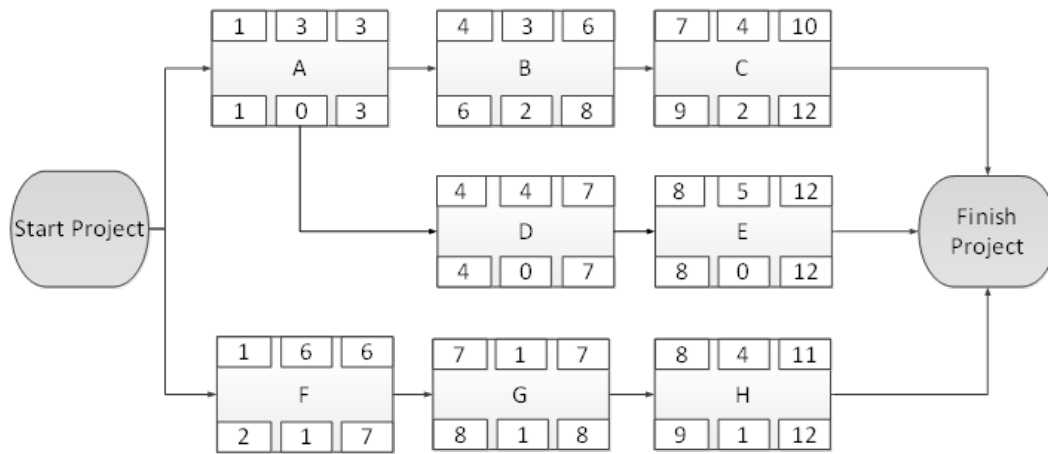

In the network diagram, if work package C duration is changed to 7. How long will the critical path for this project be?

☐ 10☐ 11☒ 13☐ 12☒ **Correct**

Correct! Path ABC will now require 13. This is the new critical path.

5.

1 / 1 point

In the network diagram, what is the LF for Work Package C?

- ☐ 9
- ☐ 10
- ☐ 7
- ☒ 12

✓ **Correct**

Correct! Latest finish (LF) is 12.

6. The primary tool that defines key communications items and when they are accomplished during the course of a project is a _____?

✓ **Correct**

Correct! The communications management plan is subject to change and updates. It prescribes communications mediums. It does not define communication channels. It is accomplished during the project planning.

- ☐ Accomplished during project initiation
- ☒ Subject to change and updates

✓ **Correct**

Correct! The communications management plan is subject to change and updates. It prescribes communications mediums. It does not define communication channels. It is accomplished during the project planning.

8. A project manager is planning an important virtual meeting. What is the project manager's greatest risk?

1 / 1 point

- ☐ Interaction
- ☐ Timing
- ☐ Attendance
- ☒ Technology

✓ **Correct**

Correct! The most critical constraint to execute a virtual meeting is technology. If the technology is not adequate, nothing else matters.

9. The team is preparing a number of work performance reports to distribute to stakeholders. Which of the following are work performance reports? (Choose 2)

1 / 1 point

- ☐ Resource plan

☐ Scope statement

☒ Status report

☒ **Correct**

Correct! Work performance reports include status reports, memos, justifications, and dashboards per PMI.

☒ Memo
