1. Which of the following are the two most common lifecycle categories project managers use in project management?   **1 / 1 point**

   ☐ Lean

   ☑ Adaptive

   ⊘ **Correct**
   Correct! The two lifecycle categories are predictive and adaptive. There are lifecycle choices that fall under these two-lifecycle category umbrellas.

   ☑ Predictive

   ⊘ **Correct**
   Correct! The two lifecycle categories are predictive and adaptive. There are lifecycle choices that fall under these two-lifecycle category umbrellas.

   ☐ Six Sigma

2. A product owner meets with a key customer and determines their requirements. The project manager documents these requirements in the form of user stories. Where will these user stories be held for implementation?   **1 / 1 point**

   ○ User story backlog

   ⦿ Product backlog

   ○ Sprint backlog

   ○ Requirements log

⊘ **Correct**
Correct! The project owner holds user stories for implementation in a product backlog.

3. A project manager reviews key documents created in the initiating phase or process group. Which two documents should not be part of this review?

1 / 1 point

☑ Work breakdown structure (WBS)

⊘ **Correct**
Correct! The question asks for documents not created in the initiation phase. The project manager creates the project management plan and WBS in the project planning phase.

☐ Stakeholder register

☑ Project management plan

⊘ **Correct**
Correct! The question asks for documents not created in the initiation phase. The project manager creates the project management plan and WBS in the project planning phase.

☐ Project charter

4. The sponsor approves the project charter, and planning is underway. Which of the following baselines is the first planning target to complete and gain approval and acceptance of?

1 / 1 point

◯ Quality baseline

◯ Schedule baseline

◯ Cost baseline

◉ Scope baseline

⊘ **Correct**
Correct! The scope baseline is the first objective in project planning. The scope baseline is the foundation for all other planning efforts.

5. The primary focus of the project executing phase is the production of which of the following?

1 / 1 point

○ Reports

○ Milestones

⦿ Deliverables

○ Final product

✓ **Correct**
Correct! Production of deliverables is the focus of the executing phase or process group. We could consider the final product as a deliverable, but in most cases, multiple deliverables produce the final product.

6. Your team receives a deliverable and is about to transfer it to quality control. What is not true about quality control?

1 / 1 point

○ The quality control team uses inspections to determine if the deliverable meets specifications.

○ The quality control team performs the process in the monitoring and controlling phase.

⦿ The primary focus of quality control is to prevent defects from occurring.

○ The quality control team ensures the project team corrects defects before the customer acquires the product.

✓ **Correct**
Correct! Quality assurance, unlike quality control, is preventative.

7. A project manager receives a verified deliverable. Which of the following steps should be taken next?

1 / 1 point

○ The project manager updates the project status and informs the project sponsor.

○ The project manager transitions the product for further processing.

⦿ The project manager validates scope to gain acceptance.

○ The project manager closes out all contracts immediately.

⊘ **Correct**

Correct! The project manager shares all verified deliverables with the acceptance authority before signing off on the project as complete. This process is referred to as validate scope.

8. A project manager conducts lessons learned sessions with the project team. Which of the following questions does not need to be addressed?

1 / 1 point

◯ What went well?

◯ What can be improved?

◉ What are the next steps?

◯ What could have gone better?

⊘ **Correct**

Correct! *What are the next steps?* is an essential discussion item, but it is not discussed during a lessons learned session.

9. What is the primary purpose of a project kick-off meeting?

1 / 1 point

◯ Review the project charter

◯ Build the project team

◉ Attain stakeholder acceptance

◯ Gain sponsor approvals

⊘ **Correct**

Correct! The primary purpose of a project kick-off meeting is to present an approved project management plan to stakeholders for acceptance.

10. Which of the following models does the product backlog follow?

1 / 1 point

◯ The Waterfall Model

◯ The Agile Model

○ The Scrum Model

⦿ The DEEP Model

   ⊘ **Correct**

      Correct! The product backlog follows the DEEP Model, which stands for
      Detail, Estimate, Emergent, and Prioritize.

○ The Scrum Model

⦿ The DEEP Model

⊘ **Correct**

Correct! The product backlog follows the DEEP Model, which stands for
